Subject: RE: setting up AK north slope inspections

Jason, after our phone call this morning, let me summarize my understanding of where we are in our planning process.

Ex. 5 DP / Ex. 7(E)

Let me know if you have any comments or questions.

I've cc'd Bruce Augustine, EPA R3 because of his experience with the rule and his friendly offer to participate.

I'll send out a meeting invitation to the group for our next planning meeting, the 1st

week of April.

Thanks,

John Pavitt, Air Compliance Inspector

Subject: RE: setting up AK north slope inspections

Thanks Katie,

We are looking at planning our spring travel here soon, wrapping up this quarter's FCEs this week and next and recently went through on approvals with our travel budgets to make our 2nd quarter slope trip. As folks wrap up their assigned FCEs and send out their information requests in the first week of the new quarter, they will be soliciting inspection dates from their source points of contact.

Ex. 5 DP / Ex. 7(E)

v/r,

Jason Olds

Subject: setting up AK north slope inspections

Hi Jason -

Have we made any progress nailing down the dates and facilities associated with the 0000 inspections? I'd like to get this set up as soon as possible. I don't really need to be involved, but please loop in John, Chris and Tori (cc'd on this message).

Thanks!
